

IMPROVE YOUR EDUCATION PROGRAM

- Obtain funding for manufacturing curriculum enhancements through SME grants
- Help students apply for SME student scholarships and awards programs
- Receive and bestow recognition for contributions to manufacturing:
 - Outstanding Young Manufacturing Engineer Award
 - SME Education Award – honors the educator most respected for the development of manufacturing-related curricula and inspiring students to enter the profession of manufacturing
 - SME Frederick W. Taylor Research Medal – honors significant published research leading to a better understanding of materials, facilities, principles, operations and their application to improve manufacturing processes
- Create and lead your own student chapter as an SME Student Chapter Faculty Advisor

GET THE LATEST INFORMATION

- Save time on research and get the information you need...fast through the SME PowerSearch at www.sme.org/powersearch or from the SME reference librarian
- Learn how to improve your operations through books, instructional videos, CD-ROMs and DVDs
- Read about emerging issues and technologies in *Manufacturing Engineering* – SME's monthly magazine
- Review in-depth scholarly scientific findings in *Journal of Manufacturing Systems* and *Journal of Manufacturing Processes*
- Receive member updates via SME News and e-bulletins
- Access free technical papers, reports, journals and keynote papers
- Enhance your educational programs and your students' knowledge through SME's training, technical conferences, forums, and plant tours
- Visit SME expositions with your students to get a firsthand look at the latest technologies and equipment in all areas of manufacturing

"SME is truly a part of my daily life. I use SME's resources to share my information and interact with a rich diverse group of professionals. Continuous opportunities to get involved at international and local events have also helped broaden the vision of manufacturing technologies for my students."

Dr. Ismail Fidan, PhD

Faculty Advisor at Student Chapter S215
Associate Professor
Tennessee Tech University

SME helps you grow personally and professionally while contributing to the future of manufacturing
